

## NOTICE INVITING WRITTEN PUBLIC COMMENT

Notice is hereby given that the Air Pollution Control Officer (APCO) has made a preliminary decision to approve banking application number 14855 for Emission Reduction Credits (ERCs) for the Hunters Point Power Plant (Plant No. 24) at 1000 Evans Avenue in San Francisco, California, which has been permanently shutdown.

If approved, a Banking Certificate will be issued for the following totals:

|      |       |               |
|------|-------|---------------|
| NOx  | 58.20 | Tons per Year |
| CO   | 16.24 | Tons per Year |
| PM10 | 21.59 | Tons per Year |
| SO2  | 2.75  | Tons per Year |
| POC  | 15.26 | Tons per Year |

The emission reduction credits will only be used to offset emission increases from other power generation facilities (including resource recovery and cogeneration facilities).

A summary of the application is available for public inspection at the District Headquarters, 939 Ellis Street, San Francisco, CA 94109 in the Engineering Division, 3rd Floor.

The Air Pollution Control Officer invites written public comment on the preliminary decision. Comments should be submitted to Doug Hall, Supervising Air Quality Engineer, at the above address by August 31, 2007. Alternately, comments may be submitted by e-mail to [dhall@baaqmd.gov](mailto:dhall@baaqmd.gov). The APCO will consider comments on the preliminary decision before taking Final Action.

Dated at San Francisco, the 23<sup>rd</sup> day of July, 2007.

Signed by Jack P. Broadbent
